

Great Plains Construction

In 2004, Tri-State Industrial Group established the Great Plains Construction (GPC) department with three ingredients: gumption, vision, and a single backhoe. By mixing in long hours and attention to detail, GPC grew in services and skills to become one of the most prominent companies in the region.

Services

- Dump Truck
- Backhoe
- Track-hoe (Volvo EC35)
- Excavator (Komatsu PC300)
- Road Grader
- Hydro-Vac
- Trencher
- Metal Buildings
- Garver, LLC: Engineer of Record

Products

- Rock
- Shale
- Dirt
- Top Soil
- Red Select
- Sand
- Crusher Run
- Screening

Industries

- Petroleum
- Manufacturing
- Wind Energy
- Agriculture
- Commercial
- Military
- Utilities
- Residential

What Is The Tri-State & GPC Difference?

GPC's expertise includes anything needed to build or maintain a permanent or temporary location; road graveling and grading, site excavation, location building, dirt and rock hauling, conventional and hydro-vac trenching, underground electric, underground piping, underground communications lines, industrial metal buildings and more. **MEMBER ISNetworld!**
